Profile

B.Tech Computer Science Engineering student at Pimpri Chinchwad University with hands-on experience in Python development and campus outreach, and project work spanning AI-driven infrastructure intelligence, cyber threat analysis, and healthcare applications. Interested in applying technical problem-solving, collaboration, and a learning mindset to technology-driven business challenges.

Education

Pimpri Chinchwad University (PCU) 2024 – 2028
B.Tech in Computer Science Engineering CGPA: 9.27
RMG Maheshwari English School 2024
HSC (12th) – 63.4%
Gyan Ganga English Medium School 2022
SSC (10th) – 83.8%

Skills

Soft Skills: Teamwork & Collaboration, Leadership, Communication, Problem Solving, Time Management, Adaptability
Technical Skills: Python, Java, C++, HTML, CSS, JavaScript, Django, Data Structures & Algorithms, AI/ML Concepts, Cybersecurity Fundamentals, Arduino, Embedded C, LLM Integrations
Methodologies: Agile Fundamentals

Experience

Python Developer Intern – QSkill *July – August 2026*

- Completed a one-month internship focused on Python development and practical programming tasks.

Campus Ambassador – AllCollegeEvent.com (ACE) *August 2026 – Present*

- Support campus outreach by sharing event opportunities and helping connect students with college-related events and activities.

Projects

Bharat InfraPulse *In Progress*
AI-Powered Citizen Demand & Infrastructure Investment Intelligence Platform
Roles & Responsibility: Contributed to the proposed AI workflow for structuring multilingual citizen text, voice, and photo reports; outlining demand clustering, demand–supply gap analysis, forecasting, explainable priority scoring, and budget-scenario planning.
CyberCEP – Real-Time Cyber Threat Intelligence Platform *2026*
Roles & Responsibility: Worked on a Python event-processing pipeline using a Kafka-style publish–subscribe bus and sliding windows; mapped rule-based detection for brute force, SYN floods, port scans, APT kill chains, and credential stuffing with Isolation Forest anomaly detection and alert visualization.
AarogyaAI App – AI + Healthcare Application *2026*
Roles & Responsibility: Contributed to the design of a multi-disease risk prediction workflow covering diabetes, heart disease, hypertension, liver, and kidney disease; outlined ensemble models, interpretable risk factors, and the patient journey from chatbot guidance to specialist recommendations, appointments, and reports.

Co-Curricular Activities

Coordinator – TEDx PCU *2026*
Event Lead – PCU Pitch Fest 2.0 *2026*
Design Head – PCU Developers Club *2026 – Present*
Technical Head – PCU Cultural Club *2026 – Present*
Management Role – Ideathon 2k26 (24-Hour Event) *2026*

Strengths

Analytical Thinking • Quick Learning • Adaptability • Ownership & Accountability • Attention to Detail • Team Collaboration

Courses & Certifications

- Agile Project Management – Google
- Foundations of Cybersecurity – Google
- Django Web Framework – Meta
